Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Monday 13 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy for all, with patchy rain at times.

Today:
An overcast start, with intermittent outbreaks of light rain across northwestern areas. Remaining quite cloudy, but dry for most into the afternoon, with some lingering rain in the far west. Feeling warm in any brighter spells. Maximum temperature 20 deg C (68 deg F).

Tonight:
A dry evening for most but with rain fringing southwestern areas. Overnight, further widespread rain, heavy and possibly thundery in places, moves in from the southwest, affecting all by morning. Minimum temperature 13 deg C (55 deg F).

Tuesday:
A wet day for most, as the widespread heavy rain, thundery in places, lingers across the region. Becoming drier from the southwest through the afternoon. Maximum temperature 21 deg C (70 deg F).

Outlook for Wednesday to Friday:
Misty starts in places on Wednesday and Thursday, then becoming fine and largely dry with sunny spells, feeling warm in these. Wet and windy Friday morning, becoming drier later.
